**Note:** The amount to be paid by the customer will be automatically generated through the software application on entry of the mineral weight. No manual entry of sale price will be possible.

## Process to generate echallan at Buffer Stock via Mobile App

- ❖ First of all, through BSMC login credential, a Dispatch point user will be created for mobile app.
- ❖ Allow Quantity Dispatch to the User.
- ❖ Now download "BMM Echallan" app from Play Store. If already downloaded the app earlier then, it can be updated via play store by selecting update option.
- ❖ Login (Through Dispatch point user) in the mobile app and set the pin. Pin will set only once.
- ❖ Select the "Generate Challan" option.
- ❖ Fill the Consignee details in the form.
- ❖ Select Motor Type (Motorized/Un-motorized). If motorized selected the GPS e-lock is mandatory for the Vehicle and Driver Name and mobile number, Vehicle number, capacity must be entered.
- ❖ If un-motorized selected, then above mentioned field is not needed.
- ❖ When Mineral weight is entered then the "Sale Price", "BSMC Commission", "GST" and "Total Sale price" will be automatically calculated as per fixed new rate chart for each district.
- ❖ After selecting "Generate Challan", the challan will be printed via Bluetooth Printer.
